The image shows a JavaFX dialog box titled 'Add Part'. It has a title bar with standard window controls. Below the title bar, there are two radio buttons: 'In-House' and 'Outsourced'. The 'Outsourced' radio button is selected. Below the radio buttons, there are several text input fields: 'ID' (containing 'Auto Gen - Disabled'), 'Name' (containing 'Part Name'), 'Inv' (containing 'Inv'), 'Price/Cost' (containing 'Price/Cost'), 'Max' (containing 'Max'), 'Min' (containing 'Min'), and 'Company Name' (containing 'Comp Nm'). At the bottom of the dialog, there are two buttons: 'Save' and 'Cancel'. Annotations with arrows point to various parts of the dialog: 'partAdd.fxml' points to the 'In-House' radio button, 'partAddOut.fxml' points to the 'Outsourced' radio button, '[inventory.addPart && main.fxml]' points to the 'Save' button, and 'main.fxml' points to the 'Cancel' button.
